

<p><b>An ornithologist (biologist that works with birds) climbs up the tree to band the young ravens in the nest. You are busy dropping stones on top of the scientists head. The raven player on your right steals a food piece from your open cache.</b></p>	<p><b>You are a playful raven. Lying on your back you miss the opportunity to take food to the hidden cache. You must wait one turn before you jump back on your feet!</b></p>
<p><b>You are a skillful raven. Using a branch as a tool, you collect one piece of food from the other 3 ravens. You may choose to put the 3 food pieces in the open or hidden cache.</b></p>	<p><b>You are a very hungry raven. You lead the other 3 ravens to a pack of wolves who are busy feeding on a dead deer carcass. For your good deed, you are awarded one piece of food.</b></p>
<p><b>Green raven loses one piece of food. This can be taken from the open cache. If none are there, the raven must give up one of the food pieces from its hidden cache. Food piece goes back into group cache</b></p>	<p><b>Purple raven loses one piece of food. This can be taken from the open cache. If none are there, the raven must give up one of the food pieces from its hidden cache. Food piece goes back into group cache</b></p>
<p><b>Brown raven loses one piece of food. This can be taken from the open cache. If none are there, the raven must give up one of the food pieces from its hidden cache. Food piece goes back into group cache.</b></p>	<p><b>Blue raven loses one piece of food. This can be taken from the open cache. If none are there, the raven must give up one of the food pieces from its hidden cache. Food piece goes back into group cache.</b></p>
<p><b>Blue raven gains one piece of food. Take one piece of food from the group cache.</b></p>	<p><b>Brown raven gains one piece of food. Take one piece of food from the group cache.</b></p>

<b>Green raven gains one piece of food. Take one piece of food from the group cache.</b>	<b>Purple raven gains one piece of food. Take one piece of food from the group cache.</b>
<b>You are a generous raven. Take one piece from your open cache and give it to the raven on the right.</b>	<b>You are a lucky raven. You came across another ravens hidden cache. Take a food piece from any ravens (players) hidden food cache. Your choice!</b>
<b>Whoops! You got too close to the enemy, the owl. You lose a turn so that you can make a hasty retreat!</b>	<b>Whoops! You got too close to the enemy, the falcon. You lose a turn so that you can make a hasty retreat.</b>
<b>Go back 2 spaces.</b>	<b>Go back one space.</b>
<b>Go back 3 spaces.</b>	<b>Go forward one space.</b>

<p><b>Go forward two spaces.</b></p>	<p><b>Go forward three spaces.</b></p>
<p><b>Food trade card.</b> You can trade for any food piece that you want, from any player that has it. If the player does not have that item in their open cache, they must give it to you from the hidden cache.</p>	<p><b>You have paired up with another raven (player) to trick a human into giving up his sandwich. You skillfully distract the human while your partner grabs the sandwich. Both of you fly to safety and share the food. Both of you take one piece of food and put it into your hidden cache (after sampling a small piece of the tasty sandwich of course!)</b></p>
<p><b>You spot a crow sneaking around your territory. While you are busy chasing the crow, another raven steals a food piece from the open cache. Put a food piece from the open cache back into the group cache.</b></p>
